## Frederic Fekkai's Adir Abergel Transforms Kristen Stewart's Tresses From Day to Night

**DAY:** *Fekkai's Abergel created a feminine and flirty style for Stewart's David Letterman Appearance*

**HOW TO GET THE LOOK:** Abergel started by applying the **Fekkai Advanced Full Blown Volume Styling Whip** at the roots and working throughout the hair. Using a round brush, he blow-dried the hair straight, and spritzed the **Fekkai Advanced Brilliant Glossing Sheer Shine Mist** for added shine. Adir curled the hair using a 1-inch curling iron, and sprayed with **Fekkai Coiff Océanique Tousled Wave Spray** to create the flirty texture. He then pulled the hair back loosely and secured it by knotting at the nape of the neck. To finish of the look, Adir sprayed **Fekkai Advanced Sheer Hold Hairspray**.

**COLOR:** Adir teamed up with Clairol Celebrity Stylist, Marie Robinson, to dye Kristen's hair strawberry blonde. Abergel encouraged Stewart to return to her natural roots, and pulled images from the 1950's for inspiration. To achieve Stewart's strawberry blonde color, Abergel suggests using the **Fekkai Salon Color 6R Copper-Lucy**.

**NIGHT:** *Fekkai Celebrity Stylist Adir Abergel created a soft and romantic braid for Kristen Stewart's Premiere in New York for The Twilight Saga: Eclipse*

**HOW TO GET THE LOOK:** Abergel started by applying the **Fekkai Advanced Full Blown Volume Styling Whip** at the roots and dried her hair with his hands. Next, Adir applied a dime of **Fekkai Coiff™ Nonchalant Piecing & Forming Wax** for added texture. Creating a side part, he braided the hair across the side line towards the opposite side of the head. With his fingers, he carefully pulled pieces of hair to soften and shape the face. To secure the look, he tied the hair into a loose knot. Adir sprayed **Fekkai Advanced Sheer Hold Hairspray** for all night hold.
